Email Swipe #1 - Make Money Online Angle

=====

**Subject: Start generating profits in 30 days or less?**

I'm sure at some point you've may have heard the question being asked online:

*"if you lost it all and only had 30 days to get it all back, what would you do?"*

It's a common question and I believe it has some merit no matter how many times it's asked.

It's because people are really looking for something they can depend on to get them into profit within 30 days.

If you asked me?

First thing I would do is pick up a copy of SerpScout here: (link here)

Why SerpScout? Because it's the perfect tool for helping you to find local businesses who need your help in all areas of their marketing.

Next, I would use SerpScout to find these businesses, create a dynamic report that shows the holes in the local business' marketing, then send automated follow up right inside of SerpScout.

Once a local business owner contacted me to see how they can fix those issues, I would simply close the deal.

No hassle. No face to face meetings upfront. And best of all...no cold calls.

Now, if you think this strategy doesn't work, there are already students who have been using this same system to sign up local businesses using the tools included in Serp Scout.

So, if you're looking for a true way to start generating an income online in 30 days or less, this is most likely your top option.

Especially with so many local businesses needing help during this current time we're living in.

To learn more and to see how you can use SerpScout to help position you for success in the next 30 days, go here: (link here)

You won't regret it. I guarantee it.

Cheers,

(Name here)

Email Swipe #2 - Coronavirus Angle

=====

**Subject: Future proof your income with this...**

*(If you're short on time and want to see what all this is about, go ahead and jump here: [link here] )*

Hey there,

I'm sure that you've been affected by Cov-19 one way or another by now.

It's everywhere you turn. On the news. Social media. Family and friends are talking about it constantly.

And if you're one of the people that have been affected by it personally, my heart goes out to you. I definitely don't want to come across in this email making light of the situation.

However, I am writing today to let you know about an opportunity that this very situation has created.

An opportunity with a very slim window to be precise.

And that is none other than local businesses that need major help.

Now, you're probably wondering, "is it right to profit off of what's going on?"

The short answer? No.

The long answer? Yes. (Let me explain...)

Using fear and panic to get people to part with their hard earned money is immoral and frankly, just down right evil in my opinion.

But, if you provide a true solution to help local businesses during this time to weather the storm and stay afloat, then yes...it is right to profit.

Or to be more clear, it's YOUR right to profit.

And the best way to do that today is by getting access to a brand new software called Serp Scout:  
([link here](#))

When you go to that link above, you'll see for yourself how local businesses are desperately looking for someone who can help them with their online marketing.

And why wouldn't they? They just had the rug pulled out

from under them that's going to take a long time to recover from.

This is where Serp Scout shines in my opinion.

By using all the tools included, you'll be able to find these local businesses quickly and offer your help while creating an amazing income at the same time.

I won't go in depth on all the amazing features that SerpScout has to offer,(this email would be VERY LONG if I did) but let me just say that it does all the heavy lifting of finding local businesses with holes in their marketing and putting you right in front of the local business owner without making a single cold call.

Currently, there are people using this very same tool to sign monthly clients and getting paid thousands.

And now it's your turn.

To be brutally honest, these local businesses are going to turn to someone to help them with their online marketing.

And they are going to pay them for that same help. So why not let it be you? You'll not only be earning a great income for yourself, but you'll also be a hero to those local businesses as well.

Finally, let me say that times of crisis always creates windows of opportunity for those who can help others come out of the crisis.

This, my friend, is that time for you.

Go here to see the details:  
([link here](#))

To your success,

(Name here)

Email Swipe #3 - Local Consultant Angle

=====

**Subject: Local consultants needed - get paid quickly...**

If you're a local consultant, have a local agency  
or just want to break into the local marketing scene,  
then I've got some great news for you today.

Right now, the need for local consultants has exploded!

It's true. There are reports coming in of local agencies that  
are signing up more local clients now than they ever  
have in all their years of being in business.

If you're wondering why this is, well it's due to the current  
state of world affairs.

So how can you get in on this opportunity?

First, you should get access to Serp Scout:  
([link here](#))

See, the BIGGEST problem that all local marketers  
have is prospecting. There's just no two ways about it.

And Serp Scout removes that obstacle easily in only  
3 simple steps.

You just:

1. Enter your search criteria and let SERPscout pull  
back the results

2. Create an amazing beautiful report to send to your prospects (Serp Scout helps you do this with a drag and drop report creator)
3. Let the follow up campaign warm them up, they contact you, and you close the sale!

That's it! And best of all, there's no cold calling required.

So you won't have to deal with any nasty rejection.

Right now, the guys at Serp Scout have students who are using the tool to sign high paying clients in a matter of 30 days. Sometimes a lot less.

And you can too. All you need to do is find the local businesses that have issues with their online marketing.

Serp Scout identifies these issues for you quickly and easily.

Once you see where the problems are, just notify the local business owner by sending them an email (included with Serp Scout) that shows how you can help them.

Now, when a local business owner contacts you back, you're already in a great position. Because the local business owner is chasing you so they have now become a hot lead!

All you have to do at that point is listen to their issues, show how you can help solve them and close the sale.

You'll also find that while you might perform one service for the local business, they'll wind up contracting you for other services as well which can double or even triple your income from client!

And Serp Scout is a great way to get your foot in the door without being overbearing.

Plus, there's so many other features that Serp Scout includes that if I list them all here, I would have to write 2-3 more pages of email!

Best bet? Head over and check it out for yourself here: (link here)

With so many local business owners having down time, NOW is the perfect time to show them how you can help them.

And Serp Scout can make this happen faster than you would be able to do it on your own manually.

So go check Serp Scout now while the price is still low.

But you'll need to hurry because the price is going up every day.

Talk soon,

(Name here)

Email Swipe #4 - Product Announcement Angle

=====

**Subject: How to turn things around this year and get paid...**

Ok, let's talk.

If you're like the majority of people, you're probably not seeing the results that you hoped for from your online efforts right?

Sure, you've bought this guru's course and followed this 'expert's advice on social media only to be nowhere closer to your goals while ANOTHER year has passed.

So, how can you change that this year?

I'll tell you how in a moment, but first head over and check out Serp Scout here: [\(link here\)](#)

Just do it. Trust me. Then come back to this email because I'm about to lay out your six figure plan for the rest of the year.

*(\*waiting...)*

Ok, you're back? Good. Now listen up:

Right now, if you have bought any course on SEO, ads, YouTube, Facebook, or any other kind of course that requires certain tasks to get traffic and sales, then you already have enough to generate six figures.

Let me explain...

A lot of local business owners don't know 20% of what you now know.

They don't know how to:

- \* Setup an ad pixel
- \* Optimize a page for SEO
- \* Create a backlink
- \* Schedule (or create) social media posts
- \* Setup an online profile
- \* Create a YouTube campaign
- \* Build a website

And the list goes on...

But you? You probably can look at that list above and not even blink right?

Or you could easily find out how to do it watching some training here and there online.

But the local business owners? They just don't know how or they don't have the time. And most of them are trying to stay afloat now so they don't know WHERE to put their focus.

And this is how you can help them. You can provide a number of services that helps them draw customers locally while they try to figure this online marketing thing out.

And Serp Scout can put you in touch with tons of these local business owners in a flash.

Look, you don't want to do this manually. Nor do you want to be met with rejection because of trying to cold call local business owners.

The easiest and simplest way is to do a search within Serp Scout, let it pull back the results and then see where the local business needs help.

Then you can drag and drop your way to a very stunning report that instructs the local business owner to get in contact with you.

From there, just let the emails warm up the local lead (done right within Serp Scout) while you focus on other things.

The local business owner contacts you, you help out, and get paid.

It's that simple.

But not easy. There's a difference.

If you want it to be easier, I suggest getting access to Serp Scout today.

It's not uncommon to have local business owners paying you anywhere from \$500 to even \$5,000 for your services.

So just a handful of clients monthly can easily create a true six figure income.

But even if you only got one or two clients paying you \$1k a month, wouldn't that be worth it?

Especially since you would be able to work from the comfort and safety of your home?

I'm sure you agree it is worth it. So do yourself a favor and head over now to get access to Serp Scout and get ready to make 2020 your best year yet.

Email Swipe #5 - Case Study Angle

=====

**Subject: Serp Scout is here! (local marketing profits just got easier)**

Hey there!

So there's a new kid on the block and it's called  
Serp Scout: ([link here](#))

What is Serp Scout?

Well, let's just say if it's the software you've been  
dreaming of to make profiting from local marketing  
easier.

A LOT EASIER.

See, this software was rebuilt from the famous  
Pixel Scout platform which has over 2500 users  
and sold over \$278k.

Why do I mention that? Simple. Because that  
way you know it works.

But my good friends Todd and Herc weren't satisfied.

They wanted a solution that would make it easy  
for anyone to start profiting with local marketing  
without having to go through the pain of rejection.

It had to be:

- \* Simple to use
- \* Didn't require a lot of technical savvy
- \* Anyone could find local leads right away
- \* Wouldn't require cold calling local businesses
- \* Would follow up with local business owners on  
complete autopilot
- \* Gave the user a true upper hand in getting high  
paying local clients.

Well, after months of work and tearing down Pixel Scout,  
now Serp Scout has risen from the ashes.

And it's an absolute godsend for those who do local marketing and need more leads.

Or it gives a true shortcut for those that want to break into local marketing and get paid.

Just the ability to create a dynamic report with drag and drop features that reveals the local business' weaknesses is enough to get access to Serp Scout today.

And I didn't even mention that Serp Scout follows up with the local business leads around the clock while you sit back and relax.

With all the features included with Serp Scout, you'll become a local business lead generator in no time.

And you can take those leads and turn them into a full time sustainable income.

To get the full monty of what Serp Scout can do, go here now: [\(link here\)](#)

But I do need to warn you that Serp Scout is only available at a low price for a limited time.

So you'll need to act fast if you want to secure your copy.

Tap here to learn more:  
[\(link here\)](#)

Cheers,

(Name here)
