Shipping Directions

What you need to know. People who work with all the major shipping companies generally do not know the rules/laws surrounding shipping firearms. Because what we do is classified as "gunsmithing" you are not required to use a FFL to ship us your firearms. You can legally ship it directly to us and we will ship it directly back.

1. Print out the Order Form and fill out completely.
2. Box up all Firearms and/or parts **including completed order form**.
3. (Use the address below) Print shipping label or go to preferred shipping company (UPS and USPS preferred) and have them print a shipping label. Do not tell them it's a firearm... they don't need to know and most often don't know what to do when it's a firearm so telling them creates unnecessary issues.
4. We'll confirm we've received it and will text you when it's completed to arrange return shipping.
