

Hello ASD Families!

This is a video today on how to set up your parent account for remind, as well as the remind app. Remind is a useful tool in helping families communicate with teachers through several outlets.

Remind is a two-way communication with your students teacher, coach or school. You can receive messages via the remind app, phone messenger, or e-mail. Remind translates into languages your families prefer all while keeping your personal phone number private.

Step 1 - Go to remind.com

Step 2 - Select sign up for free, you will have three options to choose from. You can either place in your e-mail address, your cell phone, or you can place in your Google account, then select continue.

Step 3 - Once you place in your e-mail account or phone number you will need to open your e-mail account for a confirmation code. When you open up the confirmation e-mail, you'll see a code. Place the code in and select submit. After reading terms of service select accept.

Step 4 - Personal information you need to create a password. It must be at least six characters long and then hit save. Place your full first and last name in and select next. Who are you? Select I'm a parent.

Step 5 - Add your cell phone number. Place your phone number in and select send a code. You can skip this step and add this cell number at a later time. But we recommend you do it now. To begin receiving messages from your teacher or coach. Once you receive the text message with the code, you have 30 minutes to place the code in and hit submit.

You are now ready to find a class and find your teacher step 6. If you have the code for the class, you may enter it here. But if you do not, you can search for your class when you select search for your class. Type in Auburn in the search bar. Scroll down until you find Auburn School District Auburn, WA. Select Auburn school district Auburn, WA.

Now you can go ahead and type your teacher's last name in the search bar, and when you find the teacher in the list click on invite.

Step 7 - Now we're ready to download the remind app on your phone. The remind app is the best way to organize your communication with your students' classes. It also provides you with 90 plus languages to choose from parents can select their preferred language while using the app.

You can download the app using the URL provided by placing your phone number inside, and hit text me a link or you could just go to your iPhones apple store, or your Android Google Play store to download the remind app.

I hope you have found this video helpful and are able to download the remind app as well as register your account as a parent. If you should require any assistance using Remind, please reach out to the tech for families in the URL provided, for more information. Thank you!
