Heya! This is the sequel to my other map “I Lost a Friend” which is soon to be completed! So I thought: “Why not just release the sequel a little early?” (Much to Ant and Cherry’s dismay. 😂) I hope you like this idea! Without further ado, here are the rules/palettes! ^^

- You must use 1920x1080 as your canvas size
- You may either do fully amv or pmv
- You have until January 1st to finish
- No happy themes, this map revolves around loss, so make sure your part fits with the theme
- Follow the palettes corresponding to your part
- Be sure to spell and capitalize your discord tag correctly so I can contact you if you get in
- Be nice to your fellow participants ofc
- Be sure to have a grayscale palette of your sona for the credit art
- If you have any questions, feel free to ping me about them. I’m more than happy to help

Palette 1: Keep it grayscale, anywhere between black and white. This includes backgrounds as well. Nothing is in color in this palette.

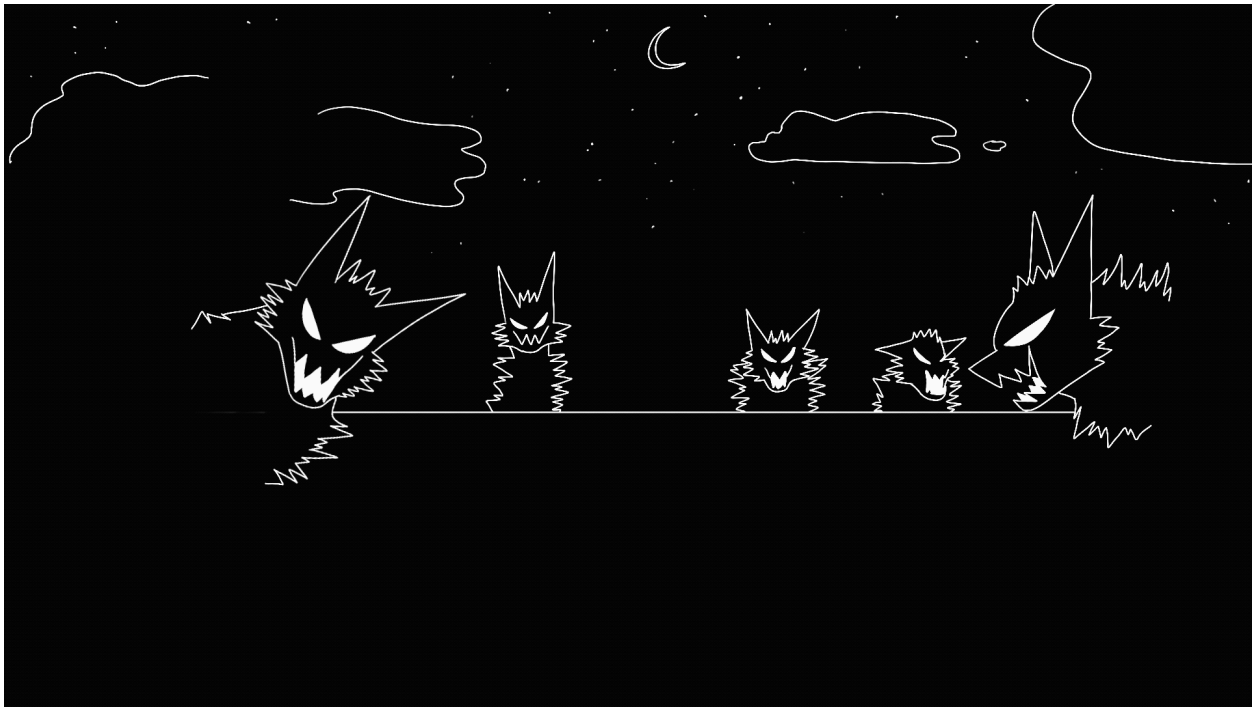

Like this. ^^ Just make sure there’s no trace of any other color in your palette. Only black and white. 👍

Also note, all line art should be black. :)

Palette 2: For this palette, only the main characters are in their normal colors, everyone else is a white lined character whose lines should move; just like everything else in the background. Your

background should be completely black. Any objects are white lines that move.

Like this! ^^ Again, if you have any questions, be sure to ask me on the server! I hope to see you there soon! :D <333
