RIGHTS

This section talks about each of our rights for adopts, commissions, and customs.

MY RIGHTS

I, the artist, have the right for my adopt or custom to be credited to me as the designer no matter the current owner

I have the right for all pieces I create to be properly credited to me. Improper crediting or claiming the art as your own will put you on my blacklist. I have the right to decline or cancel a peice at anytime with or without an explanation.

YOUR RIGHTS

If you buy an adopt or custom from me, you have the right to change the design be it major or minor changes.

Buying an adopt or custom gives you the right to sell it. However, you must sell at the price it was bought for unless additional art or physical items for the character are included.

NOT YOUR RIGHTS

You do not have the right to sell a character higher than what it was bought for UNLESS additional art or physical items of the character included.

You do not have full control of the art. You don't have the right to claim it as your own or heavily edit it. Any edits to the piece will not be fixed by me, as it is your own fault what happens to the piece after the transaction is completed.

BLACKLIST_____

This section will talk you what will get you off the blacklist. A blacklist means you will be blocked and will no longer be able to commission me or buy an adopt from me.

HOW TO GET BLACKLISTED

Claim my art or designs as your own creation(s).

Sell a character of my design for a higher price without any additional art or items.

Any other sort of breaking of these terms that I consider worthy to blacklist you for.

CANCELLATION FEES_____

This section talks about the cancellation fees and how much you'll be refunded.

CANCELLED BETWEEN SKETCHING AND LINEART

If you cancel a commission during the sketching and lineart phase, you are entitled to a full refund.

CANCELLED DURING LINEART

If you cancel during the lineart phase, you are entitled a 50% refund.

CANCELLED DURING COLORING/SHADING/BACKGROUND

If you cancel during the coloring phase or shading you are entitled a 25% refund only if there is a background. If there is no background or you cancel during the background phase, you are not entitled to a refund at all since the piece is nearly complete

IF I CANCEL A PIECE WITH CONTACT TO YOU

If I cancel the commission during any phase, you will be given a full refund.

GHOSTING

Ghosting is when communication is cut off with seemingly no explanation. Basically ignoring me and my messages.

If you ignore me for over 3 weeks, the commission is automatically cancelled with no refund.

You have no right to a refund if you contact me after 3 weeks.

If you contact me after 3 weeks wanting me to continue progress, there will be a fee depending on how much of the piece has been completed.

Major revisions to the piece will not be made. The piece will be finished only as we initially agreed upon.

PAYMENT_____

This covers anything involving payment such as payment plans or how to pay.

PAYMENT PLANS

Payment plans are available for commissions over \$50. Final images will not be sent until the commission has been paid in full.

HOW TO PAY

Payment will only be done through PayPal. This is not something I plan on changing nor is it something I will change for you specifically. Checks are not and will never be accepted.

WIPs

This section will talk about various topics concerning WIPs (work in progress images)

WHEN YOU WILL SEE A WIP

Unless I need clarification on something, WIPs will be sent of these stages: sketching, lineart, coloring, shading of character and, if complex, background.

ASKING FOR A WIP

You are able to ask for a WIP whenever you wish, but when you receive it may vary depending on where I am and the time of day.

REVISIONS

This section will cover changes to the art including fees and what I deem minor and major revisions.

MINOR REVISIONS

Minor changes to the lineart or sketch of character (such as change of emotion)

Major changes to the sketch of character (such as pose, angle, or theme change)

Minor changes to the sketch of the background (such as, but not limited to, adding a flower or tree to a background and changing from night to day if there is no shading done yet)

Changing of light source if shading has not been completed

Changing of character during sketch of character

MAJOR REVISIONS

Major changes from lineart stage onwards of character or background (such as theme, angle, or pose changes)

Changing of character from lineart stage onwards of character

Thinning or thickening of lines from lineart stage onwards of character

Light source changes during shading process of character and/or background

NOTE

Items on this list are common examples but are not the only things I consider minor/major changes. If major changes asked of me, I will tell you the fee price and notify you that it is a major change to make sure you are aware and know if you still agree to the change

FEES

Fees will depend on the severity of the change and what the piece is (bust, fullbody, etc).

Severity of the revision is decided by me.

REVISIONS AFTER THE PIECE IS DONE

Revisions after the piece is done will ALWAYS have a fee that will be higher than a normal fee

Revisions will only be made a week after completion
Asking for revisions after that period will not be made no matter the context or circumstances

AGREEMENT_____

By commissioning me, you are confirming that you understand and will abide by these terms.
