SAVE ONCE YOU ARE OUTSIDE

If you did steproute correctly, next battle will be 2x GreaseMonk. Encounter will trigger after one tile after going outside. Start GameOvering. At the 52th GameOver's Black screen, Hold L+R+Start+Select and nothing else, wait, pray, and maybe win.

Note : It seems Bizhawk and SD2SNES is not able to make the glitch work correctly. It is confirmed on the other hand that Snes9X 1.51v7 and official cart with original console is working.

Congrats.
