Cebu City

To whom it may concern,

I would like to request a clarification of the 2 attached tax declarations #GRC6-08-062-11262 and #GRC6-08-062-11263. The estate is in the process of paying the estate taxes, and we would like to verify if both tax declarations indeed represent two different properties or if one is just a duplicate or revision of the other. The property index numbers are different but the floor areas are exactly the same which we feel is too coincidental for both properties to be distinct. We humbly request your honorable office to make the necessary cancellation if the two tax declarations indeed represent the same property.

The heirs of the estate are also not exactly sure about the location of the properties or property. We do suspect it's one of the dwellings in the family compound that have approximately the same floor area. However, the boundaries indicate a lot number that is not one of the lot numbers in the surrounding area. The lot numbers around the area all start with 6098... while the tax declarations indicate both properties are bounded at the south by lot 6090-B-2-D. We feel this is just a typographical error, and would like to request your honorable office to make the necessary corrections.

Please feel free to give me a call anytime if you have questions at 0920-292-7615. Thank you very much for your kind help and consideration.

Sincerely,

Ian Chrysostomo J. Crystal  
Special Administrator  
Estate of Sps Raymundo and Desamparados Crysta
