

Food Scrap Recycling Video Transcript

0:09 hey Dad dad stop
0:17 that's one from the compost really what
0:24 else you know in the compost food scraps
0:26 it's a paper and plants let me teach you
0:30 it's easy cheese food so paper eggshells
0:40 coffee ground bread avocado fish teabags
0:52 bananas and flowers even the crust for
0:58 my sandwich that I refuse to eat Wow
1:01 so basically food scraps items in
1:03 cooking describe soon after building all
1:05 the compost that's easy that doesn't go
1:09 on the top milk cartons plastic
1:13 containers plastic bags tin foil plastic
1:22 wrap
1:24 you straws and plastic cutlery because
1:34 it's at school today I even took the
1:36 pledge to compost all of my food stress
1:38 all the time also I do this when I'm at
1:42 Tyler's house they have special tricks
1:44 to keep composting clean they have a
1:47 kitchen tail like this one that they
1:49 line this newspaper before they had this
1:52 pail they used to collect the compost
1:54 fold container like this one but
1:57 whatever it's collected in we take it to
1:59 the compost then we just dump it into
2:01 the cart yep just empty to the car food
2:05 scraps and food soil paper from your
2:07 building collective then taken to a
2:10 compost facility after 2 to 3 months
2:13 your old food scraps become compounds
2:15 next comes the exciting part and
2:17 transforms into compost compost is used
2:21 by residents and farmers to nourish
2:23 their friends and reduce their need for
2:25 water some compost also goes back to the
2:28 community and uses places like Oakland
2:31 Unified School District in the cycle
2:35 continues is it open recycled conte
2:38 compost encouraged
