The custom printed design can include:

- Company logo
- Brand name
- Brand colors
- Custom graphics
- Promotional messaging
- Other approved artwork

Businesses can also select the bag dimensions, material, and finishing according to the intended application.

Custom printed shopping bags allow businesses to combine practical customer packaging with their own visual identity.

They can help businesses:

- Choose shopping bag dimensions suitable for their products.

When customers carry branded shopping bags outside the store, the printed design can also provide additional visibility for the business.

Custom Printed Logo Designs

Businesses can provide their own logo artwork for printing on the shopping bags.

The design can combine the logo with:

- Brand name
- Brand colors
- Custom graphics
- Promotional messaging
- Other approved visual elements

A logo can be used as the main design element, or additional artwork can be incorporated to create a more complete branded shopping bag.

Art Paper Options

Paperbag Indonesia manufactures custom printed shopping bags with logos using **Art Paper** in two available material options.

210 gsm Art Paper

210 gsm Art Paper is suitable for many everyday retail and business packaging applications. It can be used for clothing, accessories, merchandise, promotional materials, and other retail products.

260 gsm Art Paper

260 gsm Art Paper provides a more substantial option for businesses looking for a sturdier and more premium-feeling shopping bag. It is suitable for premium retail

packaging, gift sets, merchandise, corporate gifts, and other applications where a more substantial material is preferred.

The appropriate material can be selected according to the products, intended use, and desired packaging presentation.

Matte or Glossy Lamination

Custom printed shopping bags with logo can be finished with either **matte lamination** or **glossy lamination**.

Matte lamination provides a smooth and understated appearance that can complement clean and refined brand designs.

Glossy lamination provides a brighter and more reflective appearance and can complement colorful or visually prominent printed artwork.
