

NEWS AFTER NEWS.

Alright . Hello again , it's Maxine . UMMM ... I've come back to talk about this doc that my ex made about ME **called "5 months of staying quiet" . (sorry but that's like the same ass fucking name I named my first doc ... buddy be different bro . u are not me 

Tab 1

Maxine and (bluemations12 (aka the crossingfingers director who will be covered blue because I don't wanna bother censoring it all again)

Maxine (Currently 14 thanks to the Elish's info) appears to be an artist, she happened to be in the grooming process (where the Predator attempts to make their victim thing that sexual things are OK) since Bluemations12 didn't know any better that time, luckily by God's guardian angels order Bluemations12 has made Maxine his ex. There are multiple arts that Maxine has made with a romantic atmosphere and many photos of her being inappropriate. (the blue stuff in the image is Elish/Barry/Bluemations12)

I just wanna comment on this for a few things . So , I'm a groomer ?? . In what world am I the villain here ? I don't know too much about that part but I am NOT a groomer nor any kind of PEDOPHILE ... that's for sure .

The Inappropriate Art I've Drawn ...

So ... about those – First of all he encouraged it , basically ; when I made my first nsfw art of our characters , I was 'testing the waters', just based on how *he* would say sexual remarks towards me, I came to the assumption that he would be okay with said art . But I genuinely wasn't really interested in anything like that , considering I was Asexual Aromantic (I'm now asexual .) Soon enough , he'd encourage this behavior of mine ; *Barry would ask to make more " _ x _ art when ?" and similar things along those lines* . If he was really uncomfortable with it , then he could've told me ; I'm very understanding and IF he would have said something about that , then I would've backed off of the art and draw normal wholesome things instead - but NO . So how is this MY fault ?

And to add on to the whole drawing of that kind of art , it's from influence . I do what others do ... like how if Barry would make sexual remarks to me in DMs , I'd do them back AND AND ... **I DID IT BECAUSE I THOUGHT HE'D LIKE IT** . But , the thing is we were BOTH minors - I didn't know any better and what was right or wrong .

- Does no one remember that he literally sent a picture of his own dick **(ofc that's been deleted and if I had it saved - I wouldn't share it cuz that's revenge porn , I'm not that much of a horrible person) . And as well as tried to persuade me into sending a nude of myself (which I never went through with and he eventually forgot it .)

THE ZOOphile REMARK ...

Okay . The characters used aren't TECHNICALLY full on animals (like feral/on all fours) or any other art shown in his doc (prolly his human oc and mines . BUT my oc *only* had dog ears and a tail *more of a kemonomimi , my oc isn't a manga character but my point still stands.) They were more human than anything animal related.

For our MDP ocs : I can see why he might consider it to be zoophilia, because they aren't humans. Thing is, both characters are **ANTHROPOMORPHIC**, they are considered **FURRIES**. Yes, furries(even if I *don't* consider myself one). I say that because of the fact they *walk* and *talk* as **HUMANS**, they have the intelligence of a **HUMAN**.

They are **HUMANOID**. It would **100%** be zoophilia if they were **FULL ON FERAL ANIMALS** , including the genitals(as in a accurate representation of IRL animal privates) ((which you cannot see in the images, except for one that you can somewhat see, it is still a *human representation of male genitalia*)).

I understand the whole situation of whether Furry NSFW is considered Zoophilia, but this is **NOT**. They are **HUMANOID**. There are **NO**

ANIMAL GENITALIA. And zoophilia would be between a **HUMAN** and **ANIMAL** - Which that one drawing with his sona and mine don't inherently count because of my previous statement on my sona being a *kemonomimi* - they are **more human** than *animal*, there are not many animal traits other than my sona having **ONLY** dog ears and tail, and the MDP oc's being **ANTHROPOMORPHIC FURRIES**.

I AM HEAVILY DISGUSTED BY ZOOPHILES . I'M EXTREMELY SHOCKED THAT I'M EVEN BEING CALLED THAT . THEY MAKE ME UNCOMFORTABLE AND I DON'T WANT TO BE EVEN ASSOCIATED WITH HORRIBLE PEOPLE LIKE THEM . SO ABOUT HOW YOU RESEARCH THESE CLAIMS YOU MAKE ON MY NAME BECAUSE THEY'LL END UP ALWAYS WRONG !!!

Alright . That's the end of this third doc of mine ; and probably will be my last if a certain someone will ever shut up about it and stop bringing it UP ! I'm also MAYBE make a long form video , as well . But that's it , have a great rest of your week !
