## Explain-Learn About Green Screen

[Green Screen: Anchorman 2](#) (video) (hook)

Green Screen by Do Ink makes it easy to create incredible green screen videos right on your iPad or iPhone. Classroom-tested by kids and teachers, this app emphasizes ease-of-use and simplicity while still enabling you to get fantastic results. With Green Screen by Do Ink, you can tell a story, explain an idea, and express yourself in truly creative and unique ways. Students can use it to create book reviews, explore geography, discuss weather events in science, etc.

[How to use all three layers in the Green Screen by Do Ink app on the iPad](#) (video)

[How to Change Position, Size and Orientation of Image on Green Screen](#) (video)

[How to Combine, Trim and Save to the Camera Roll Two Videos in the Green Screen App](#) (video)

Key Features of the App:

- Use the live video camera, or import pre recorded videos, photos, and artwork
- Combine up to 3 image sources at a time
- Scrollable timeline makes it easy to sequence your videos and photos
- Move, scale, rotate and crop your image sources (photos, videos)

# Green Screen

- Mask out unwanted areas in your image sources (photos, videos, live camera)
- Create green screen photos and save to camera roll
- Scrollable timeline makes it easy to sequence your videos and photos
- Trim videos on the timeline to keep only the parts you need
- Save your recorded videos to your camera roll (and from there to YouTube, email, etc.)
- Create and save multiple projects

## Implementing:

[Sample Lesson Plan](#)

## Considerations:

Steps to think about:

1. Writing the script
2. Planning the project (storyboard)
3. Organizing the content (pictures/videos)
