Create a Playlist

Directions: Get into groups of 7. Your facilitator will give you a keyword. You will then have to think of a song that contains that keyword. For example, if the keyword for song 1 is “dogs,” you can write down “Who Let the Dogs Out?” as a song. The song MUST contain the keyword.

At the end of the round, each team will reveal the song they chose. You will earn 1 point for each unique song that you identify. Meaning, if your song is used by another team, neither team receives a point for the song.
