Emails	Austin Fraser apfraser@syr.edu Jared Liebergen jlieberg@syr.edu Ian York iayork@syr.edu Heller heller@syr.edu Your TA is your primary contact person for everything. If you write to Heller, the initial response will always be: "Did you write to your TA?"

Goals	** To improve reasoning skills by practicing within a formal structure. ** To develop a fuller appreciation of the meanings of English sentences by analyzing their formal structure and tracing their logical consequences. ** To improve skills in written and oral communication by accomplishing the first two tasks. ** To give Heller something fun to do.

Textbook	*A Concise Introduction to Logic* by Patrick Hurley and Lori Watson

Grades	Homework: 10%
	            A: You turned in the homework and did very well on it.
	            B: It looks like you tried hard.
	            C: It looks like you tried a little
	            F: You didn't turn anything in or didn't even try
	Exam 1: 25%
	Exam 2: 25%
	Exam 3: 40%
	
	There is no extra credit. None. Not any. Zippo.

HW grading	You will turn in all of the HW assigned. The TA's will grade five of the problems. I will tell them which five to grade.

Attendance	Attendance is expected. You should attend all classes. To be explicit, that includes all of Heller's lectures and all of your TA's discussion sections. **For each unit, we will deduct points from your exam grade for poor attendance.** If you miss two classes you will lose ½ a plus/minus grade. If you miss three classes, you will drop down a whole plus/minus grade. If you miss four classes you will lose 1½ plus minus grades, and if you miss five or more classes, you will lose 2 plus/minus grades. Attendance resets for each new unit. Absences will be excused for good reasons (like illness or family emergencies), not for bad reasons (like sleeping through an alarm or attending a concert). Unfortunately, even excused absences will hurt you, in so far as you are less likely to learn the material.
Exam Schedule	Wed Feb 16 Mon Mar 28 Thu, May 12, 5:15pm - 7:15pm, in our regular classroom.

Disability-Related Accommodations
Syracuse University values diversity and inclusion; we are committed to a climate of mutual respect and full participation. There may be aspects of the instruction or design of this course that result in barriers to your inclusion and full participation in this course. I invite any student to meet with me to discuss strategies and/or accommodations (academic adjustments) that may be essential to your success and to collaborate with the Office of Disability Services (ODS) in this process.
If you would like to discuss disability-accommodations or register with ODS, please visit their website at http://disabilityservices.syr.edu. Please call (315) 443-4498 or email disabilityservices@syr.edu for more detailed information.
ODS is responsible for coordinating disability-related academic accommodations and will work with the student to develop an access plan. Since academic accommodations may require early planning and generally are not provided retroactively, please contact ODS as soon as possible to begin this process.

Religious Observances Policy
SU religious observances policy recognizes the diversity of faiths represented among the campus community and protects the rights of students, faculty, and staff to observe religious holidays according to their tradition. Under the policy, students are provided an opportunity to make up any examination, study, or work requirements that may be missed due to a religious observance provided they notify their instructors before the end of the second week of classes for regular session classes and by the submission deadline for flexibly formatted classes.

Academic Integrity
Syracuse University's Academic Integrity Policy reflects the high value that we, as a university community, place on honesty in academic work. The policy holds students accountable for the integrity of all work they submit and for upholding course-specific, as well as university-wide, academic integrity expectations. The policy governs citation and use of sources, the integrity of work submitted in exams and assignments, and truthfulness in all academic matters, including course attendance and participation. The policy also prohibits students from: 1) submitting the same work in more than one class without receiving advance written authorization from both instructors and, 2) using websites that charge fees or require uploading of course materials to obtain exam solutions or assignments completed by others and present the work as their own. Under the policy, instructors who seek to penalize a student for a suspected violation must first report the violation to the Center for Learning and Student Success (CLASS). Students may not drop or withdraw from courses in which they face a suspected violation. Instructors must wait to assign a final course grade until a suspected violation is reviewed and upheld or overturned. Upholding Academic Integrity includes abiding by instructors' individual course expectations, which may include the protection of their intellectual property. Students should not upload, distribute, or otherwise share instructors' course materials without permission. Students found in violation of the policy are subject to grade sanctions determined by the course instructor and non-grade sanctions determined by the School or College where the course is offered, as described in the Violation and Sanction Classification Rubric. Students are required to read an online summary of the University's academic integrity expectations and provide an electronic signature agreeing to abide by them twice a year during pre-term check-in on MySlice.
