

SL: 2 ways to skyrocket your YouTube shorts!

Hey %FIRSTNAME%

I owe my channel's success (100k subscribers in just 3 weeks!) to YouTube Shorts.

And I've got two game-changing tricks that most channels overlook.

Want to know the secrets?

1. **Make looping videos:-** I am sure you have seen videos like such with millions of views.

To make such videos all you need to do is to edit a video like you normally do and then just take part at the beginning of the video and put it in the end.

May not look like it, but it has a big impact on the viewer.

2. **Make the viewer comment on the video:-** The algorithm of YouTube promotes videos with high engagement rate such as more likes, more shares, and especially videos with more comments.

You can make the viewer engage with your content by simply asking them questions or asking for their opinion on something.

These may feel like small changes but are what makes a big impact on your views.

Now, these were just 2 out of the 15 tips that will take you from 0 to 100k subscribers in just three weeks!
