Youth Cheer Camp

February 16, 2022

None

Take Action: Identifies opportunities for personal or collaborative action to address a situation, event, issue or phenomenon in a way that is likely to improve conditions.

REFLECTION:

The cheerleading team hosted a camp for young children to come and learn cheer. I helped teach the 4th and 5th graders at this camp. I was able to take action and teach these children about cheerleading. The theme of this cheer camp was Frozen themed. While taking action, I also painted my team's sign to help direct kids where to go.

I really enjoyed teaching these children. I got to teach them all two chants and a dance. I love working with children so this was a fun experience for me. During this experience, I also learned more about myself. I learned that I like to take action.

I liked taking action and helping my teammates and coaches get things done. This camp helped me become more of a vocal leader. I usually am not very vocal, but I felt that It was best to be vocal when teaching the kids. Not only did I help the children learn, but I also helped myself. I helped myself learn that I am a good leader when I step up and make my voice heard.
