

Course Registration in EdReady Math (H.S. Algebra 1)

Welcome to **EdReady Math for High School Algebra 1**. Instructions for getting started with EdReady are below. Your Goal Key, which you will need in Step #2 below, is:

- Key: **mvsa1SGK_mvirt2425YYSVFN**

For a description of content covered by each goal, see the [course syllabus](#). These goal keys are valid through 09/30/2025.

Step 1: Create Your EdReady Account

- Visit <https://michiganvirtual.edready.org> to create an EdReady account. We suggest bookmarking this page as it is the main login page.
- Click the GET STARTED button on the webpage, and fill out the "Sign up for EdReady" form **using a valid email address, that you can access**, as you must verify and activate your EdReady account via an email sent to that address. *If you are a parent registering on behalf of a younger student who lacks her/his own email account, please be aware that each email address can only be associated with a single EdReady account. You will need to use multiple email addresses if you are registering more than one child.*
- Check your email inbox to locate the EdReady Account Confirmation email, and click the link in this email to confirm your registration. If you do not receive a confirmation email, please contact Michigan Virtual [Customer Care Center](#) or (888) 889-2840.
- Return to the [EdReady Login page](#).

Step 2: Log Into EdReady and Select Your Study Path

- Enter your EdReady login credentials (email address and password) and click the Login to EdReady button.
- Click on the **"Enter a key to join private goals"** button on the right side of the screen, and enter the first of the Goal Keys listed above.
 - *TIP:* For easy entry of the goal key, use your mouse to highlight the key (beginning with mivirt...), and press CTRL+C on your keyboard or Copy on your screen. Then click on the box that reads "Enter a key" and press CTRL+V on your keyboard or Paste on your screen. After you paste the key, click the checkbox labeled "Show key" to see if it matches the key listed above.
- Click Done.

- If you have any difficulties in getting started and adding your goals to your EdReady dashboard, please visit our [EdReady: Getting Help](#) guides or contact Michigan Virtual [Customer Care Center](#).

Step 3: Go to Goal and Begin Your Study Path

- The first time you click Go to Goal, you (or your student) will be directed to take a diagnostic pre-test to determine which topics to include in a personalized study path. Click on “Start diagnostic” and answer each question to the best of your ability.
 - *TIP:* Remember that you are not expected to know how to answer all of the questions in the diagnostic correctly. Answer as many questions as you can. This will help you build a study path unique to the topics on which you most need help and practice.
- Once your Study Path is built, click “Go to Goal.” Begin working on the topics included to master the skills, and watch your Current Score increase and the individual topics move out of the list of topics you need to study and into the list of topics you have mastered!

Step 4: Getting Help
