

# **Learn Chinese – Star Chinese Application Privacy Policy**

This privacy policy governs your use of the software application Learn Chinese – Star Chinese Application for Android. This application is an educational tool for Mandarin Chinese language learners.

## **What information does the Application obtain and how is it used?**

### **User Provided Information**

The Application obtains the information you provide when you download and use the Application. When you use the Application, you generally provide (a) transaction-related information, such as when you make purchases, respond to any offers, or download or use applications from us; (b) information you provide when you contact for help.

### **Automatically Collected Information**

In addition, the Application may collect certain information automatically from you and/or your device which may be considered Personal Data under applicable data protection laws, such as: the type of mobile device you use, your mobile devices unique device ID, the IP address of your mobile device, your mobile operating system, and information about the way you use the Application. Data and analytics about your use of Application (e.g. in-app usage, session length, preferred settings, which in-app advertisements you may have viewed, crash reports). “Advertising ID” includes the Apple Identifier for Advertisers (“IDFA”) on Apple, and the Google Advertising Identity (“GAID”) on Android. These are unique identifiers for mobile devices that advertisers use for interest-based advertising. They are consistent across all apps and thus allow tracking across apps. These identifiers can be reset from the device’s settings. On Apple, you can opt out by choosing the “limit ad tracking” option in the privacy settings. On Android, you can opt out by choosing “Opt out of interest based ads.” Advertising IDs are non-permanent, non-personal identifiers uniquely associated with your device. Similar technologies include tracking pixels within ads. These technologies allow companies (including marketers and advertisers) to recognize your device when you use websites and applications. “Device information” means device type, model, manufacturer, operating system and language, or other technical data like supported application programming interfaces (“APIs”), device hardware information available from a device for a developer to check the device’s compatibility with the Application.

## **Does the Application collect precise real time location information of the device?**

This Application does not collect precise information about the location of your mobile device.

## **Do third parties see and/or have access to information obtained by the Application?**

Only aggregated, anonymized data is periodically transmitted to external services to help us improve the Application.

## **What are my opt-out rights?**

You can stop all collection of information by the Application easily by uninstalling the Application. You may use the standard uninstall processes as may be available as part of your mobile device or via the mobile application marketplace or network.

## **Use of device permissions**

The following is a listing and description of certain functions on the Device that are accessed and/or modified by our Apps, and which may require explicit user permission to access. You acknowledge that denying explicit user permission may affect or reduce your user experience with the App, or prevent the App from working at all.

Android

CHANGE YOUR AUDIO SETTINGS

Allows the App to modify global audio settings such as volume and which speaker is used for input/output.

FULL NETWORK ACCESS

Allows the App to create network sockets and use custom network protocols.

Allows the App to view information about network connections such as which networks exist and are connected.

READ PHONE STATE

When enabled, allows the App to pause a Recording when a phone call is received.

CHECK LICENSE

Verifies the market license.

## **Age limit**

When we collect Personal Data we do not know the age of our users. If we discover we have inadvertently gathered Personal Data from a minor under 13 years of age, we will take reasonable measures to promptly delete such Personal Data from our records.

## **Security**

We are concerned about safeguarding the confidentiality of your information. We provide physical, electronic, and procedural safeguards to protect information we process and maintain. For example, we limit access to this information to authorized employees and contractors who need to know that information in order to operate, develop or improve our Application. Please be aware that, although we endeavor provide reasonable security for information we process and maintain, no security system can prevent all potential security breaches.

## **Changes**

This Privacy Policy may be updated from time to time for any reason. We will notify you of any changes to our Privacy Policy by posting the new Privacy Policy here. You are advised to consult this Privacy Policy regularly for any changes, as continued use is deemed approval of all changes.

## **Contact us**

If you have any questions regarding privacy while using the Application or have questions about our practices, please contact us via email at [arturzuravljev2020@gmail.com](mailto:arturzuravljev2020@gmail.com).
