

## **RISE Preschool 2025/2026 Screening Dates**

**September 4th and 11th, 2025**

**October 16th, 2025**

**December 4th, 2025**

**January 8th, 2026**

**February 5th, 2026**

**March 5th, 2026**

**April 2nd, 2026**

**May 28th, 2026**

## **RISE Preschool 2024/2025 Screening Dates**

**September 13, 2024**

**October 25, 2024**

**December 6, 2024**

**January 24, 2025**

**March 7, 2025**

**April 11, 2025**

## **Screening Information**

*Screenings are conducted by special education teachers/service providers. The following areas are a part of the Child Find screening process:*

- *The Adaptive Domain measures the child's ability to use the information and skills acquired in the other domains.*
- *The Social-Emotional Domain assesses abilities and characteristics such as self-awareness, self-management, social awareness, positive relationships with*

*adults and children, and decision making. These abilities enable a child to engage in meaningful social interaction with adults and peers and to develop his or her own self-concept and social role.*

- *The Communication Domain measures how effectively a child receives and expresses information and ideas through verbal and nonverbal means.*
- *The Motor Domain assesses a child's ability to control and use the large and small muscles of the body.*
- *The Cognitive Domain measures those skills and abilities most commonly thought of as "intellectual", with the exception of language and communication skills. The cognitive milestones involve activities such as attending to, perceiving, and processing information; remembering; thinking; and knowing. These skills and abilities are interrelated, with the acquisition of earlier skills providing the foundation for the development of increasingly complex and higher-level cognitive abilities.
