Here is a scenario representing a lucky 15 bet.

There are six doubles, 4 trebles and singles that form an accumulator.

I'm not going full blown here in terms of details, I'm showing you the strength of your actions.

if you only get one winner that is not ideal.

If you get two winners a yellow and a green slightly better.

If you get 3 winners a yellow, a green and a blue that is a lot more satisfactory.

Now if most of your selections are dds on that is no good either.

Odds on basically means less than £1.00 in value.

It can work but it is going to take up a lot of your hard earned money.

If you have a few misses you would soon agree with me that is not a good idea. Stay away from tipping advisers you will lose your money. I will show you how they are profitable but that will be when you are a member.

You want to win so you have to operate differently from the crowd. If you want to make your goals then you need to know how to bet to always be in profit.

First of all you need to back all the singles but back at least 3 of them more heavily than the others. Avoid crispin/biscuits the odds on flavor.

Try to get as close to 2/1 as possible. either side of it is ok but remember close to.

Now this is still weak.

Keep in mind I'm speaking to you with memberships in mind. This is not a single person operation.

Now you need to find another race to go with your lucky 15.

A small runner field with 5/6 members. 5/6 because you can get each way opportunities. Now the 5 runner fields do throw up the odd 6/1 or bigger.

Ok that's it i'm going home the lesson is done.Lol!!

Now what you are trying to do is make a double with one of your entries. if you manage more than one you will make money.

Forget about the losers, this will make you money.

Beware of statis in your business. Occasionally you will undervalue your bets. I normally say I did not package it right.

Now you can use the betting exchange to help you make even more money. with experience you will be able to back horses at 3/1 or above. This article won't be able to go in detail where that is concerned. On the sports book

you can only back a win but on the exchange depending on the size of the field you can back up to 4 winners and even more if the field is exceptionally big.

Now how do you fancy being able to earn over £500.00 per day

To get £5000.00 would be just 5 days work.

I'm surprised you are not a member yet.

What if you could do two lucky 15's in a day?

How much would you make then?

Well it is logical to think you can make over £1000.00

If you have the tools to make that kind of money how long would it take you to get a house?

This is where I am stopping. I'm not giving away any more of my secrets.

There is another step on the ladder that will make you more money and it is very certain to do so.

Let me talk about some of my personal experiences so you can get some idea of the potential being in this industry has.

They say it is a mugs game. If you are not on board you are the only mug around here.

They blame gamblers for being poor and leaving their family without anything. well you might find it a problem

stopping your door from knocking or your bell from ringing or anything else that gets your attention.

You won't find a telephone number to this page or else I won't have the time to calculate your bets. It has taken me over 25 years to get this good.

If you have the knowledge then all the myths about gambling can be turned on their face.

Let's close of now:

£7.00 for a lifetime of luxury. Where else do you get something like that so cheap?

There are banks everywhere.

If you use your common sense you could earn even more money than your bank manager:

Royal Bank Scotland.

I have done what I can to give you a picture of the better life. Do you value it enough to take it?

Here is one thing I didn't tell you. Multiple betting looks attractive but you must have winners and you must bet from 5/2 upwards.

That is a cardinal necessity.

If you want to earn from collective effort check this out .
