Experience

Codeit Rwanda - software engineer

Sep 2019 - Feb 2024

As a Software Engineer at Codeit Rwanda from September 2019 to February 2024, I focused on full-stack application development, utilizing a variety of technologies including ReactJS, NextJS, NodeJS, Java JSP and Servlet, and Flutter. My responsibilities included leading projects from inception to deployment, collaborating with teams, ensuring quality, and continuously learning. Throughout my tenure, I showcased adaptability, problem-solving skills, and a commitment to excellence, contributing to the organization's growth and success

Saltel Ltd,Rwanda — *software development trainer*

April 2022 - Dec 2022, Mar 2023 - May 2023,

In this role, I was responsible for training over 300 students in software development. My duties involved not only teaching coding and development principles but also leading development teams for high school projects. This experience highlights my ability to educate and mentor aspiring software developers, alongside managing project-based learning.

Ikanisa ltd, Malta — *Flutter Mobile developer*

Jan 2022 – July 2023

I focused on building and maintaining mobile applications using Flutter. My role involved collaborating with cross-functional teams to design, develop, and deploy scalable and efficient mobile applications, showcasing my proficiency in Flutter and my capability to work in a fast-paced, international environment

Barrani, Rwanda— Flutter Mobile developer(project based contract)

Sept 2023 – Nov 2023

At Barrani Rwanda, I continued my specialization in Flutter mobile development. My responsibilities included developing high-quality mobile applications, troubleshooting and fixing bugs, and ensuring the applications met user requirements and company standards

Andela Technical Leadership Program (Rwanda)

Nov 2022 - Oct 2023

→ Fullstack Engineer Nov 2022 - Oct 2023

During the nine months at ATLP, I underwent intensive training to enhance my technical and professional skills as a Fullstack Engineer. The program was designed to sharpen my abilities in both frontend and backend development. During this period, I actively worked on three major projects, taking on significant responsibilities in both the frontend and backend aspects.

→ Technical Team Lead Jan 2024 - July 2024

In this role as a Technical Team Lead, I have been instrumental in leading and guiding technical teams towards successful project completion. This position demands a high level of expertise in software development, along with strong leadership and communication skills. I am responsible for overseeing the technical aspects of projects, ensuring that development milestones are met, and maintaining high standards of code quality.

Lupiiya - Flutter developer/Freelance

Jan 2024 – June 2024

As a Flutter Developer/Freelancer at Lupiiya, I specialize in enhancing applications with OCR and local authentication features. My responsibilities include integrating these functionalities seamlessly into Flutter apps, collaborating with clients, testing for reliability, and providing documentation and support. I am dedicated to delivering high-quality solutions that improve user experience and application functionality.

HovaAI - Flutter developer

Jan 2024 – june 2024

I focused on building and maintaining mobile applications(hovaai app) using Flutter. My role involved collaborating with cross-functional teams to design, develop, and deploy scalable and efficient mobile applications, showcasing my proficiency in Flutter and my capability to work in a fast-paced, international environment.

ENCORE Investment Company - Project Manager

March 2023 – june 2024

- Led or participated in the planning, execution, and management of an e-commerce project, expanding the online sales channel and improving user experience.
- Collaborated with cross-functional teams, including web developers, designers, marketers, and product managers, to ensure the successful implementation of e-commerce solutions.
- Managed key project milestones, budgets, and timelines to ensure the project's timely delivery and adherence to budget constraints.
- Using ReactJs, NextJs and NodeJS, TypeScript, Java, and Spring Framework, ensuring high performance and reliability.

HuzaLabs - Backend Developer(consultant)

March 2024 - September 2024

As a Backend Developer at HuzaLabs since March 2024 on contract basis, my role involves designing and implementing backend solutions for various projects. I utilize technologies like Node.js, Express.js, MongoDB to develop robust APIs and systems. Collaboration with frontend developers, database management, testing, debugging, and documentation are key aspects of my responsibilities. My focus is on delivering high-quality backend solutions that align with project requirements and contribute to the organization's success.

QT Global Software Ltd - Software Developer

September 2024 - Present

- Develop and maintain web and mobile applications, ensuring high performance and security.
- Collaborate with cross-functional teams to design and implement efficient solutions.
- Debug and optimize code to enhance application quality and responsiveness.
- Stay updated with industry trends and best practices in software development.
- Work closely with UI/UX designers to create user-friendly interfaces.
