

Privacy Policy for Web.txt Chrome Extension

Effective Date: May 23, 2023

1. Introduction

Welcome to Web.txt. This privacy policy explains how we collect, use, and protect your information when you use our Chrome extension. By using Web.txt, you agree to the terms of this policy.

2. Information We Collect

2.1 Active Tab Access

- **Access to Active Tab:** Web.txt requires access to your active browser tab to function properly. This access allows the extension to read the content of the webpage you are currently viewing to convert it into a .txt file.

2.2 Data Collection

- **Collected Data:** Web.txt collects the text content from the webpage you are viewing. This data is temporarily processed to generate a .txt file for download.
- **No Personal Data:** Web.txt does not collect, store, or transmit any personally identifiable information (PII) from your browsing activity.

3. Use of Information

- **Conversion Process:** The text content from your active tab is used solely to generate a .txt file. This file is then downloaded to your device.
- **Temporary Data Processing:** The data processed by Web.txt is temporary and is not stored or logged by the extension.

4. Data Security

- **Secure Processing:** Web.txt processes data locally within your browser. No data is sent to external servers.
- **No Data Retention:** Once the .txt file is generated and downloaded, the processed data is immediately discarded.

5. Third-Party Services

- **No Third-Party Access:** Web.txt does not share or transmit your data to any third-party services or entities.

6. User Control

- **Permissions:** You can control and manage the permissions for Web.txt through your browser settings.
- **Opt-Out:** If you do not wish for Web.txt to access your active tab, you can disable the extension at any time.

7. Changes to This Privacy Policy

We may update this privacy policy from time to time. Any changes will be posted on this page with an updated effective date. We encourage you to review this policy periodically.
