 - o [The Misguided War on the SAT](#) Colleges have fled standardized tests, on the theory that they hurt diversity. That's not what the research shows.
 - o San Francisco Board of Education meeting notes - Feb. 13, 2024
 - [Middle School Math Presentation to BOE 2.13.24](#) after eliminating Algebra as an option in 8th grade - new data showed:

Rationale for Changing SFUSD's Math Sequence	Based on our student outcome data*, a study by Stanford , and community feedback, we have determined ...	7
	• Our approach to math has not led to improved outcomes in middle school and at all levels. • Student achievement declines in mathematics as students progress through SFUSD. • SFUSD has not meaningfully increased participation of underrepresented students in high level mathematics in high school. • Overall, fewer students are taking higher level mathematics in high school.	
SAN FRANCISCO UNIFIED SCHOOL DISTRICT	Click here , here , and here for SFUSD monitoring reports.
