

Hey everyone! Thank you so much for all the responses. The survey got over 400 answers, which I believe was more than enough to get meaningful results, so here they are.

To explain the survey for those who didn't participate, people simply had to listen to some fake words, then write how they think it would be spelled in English.

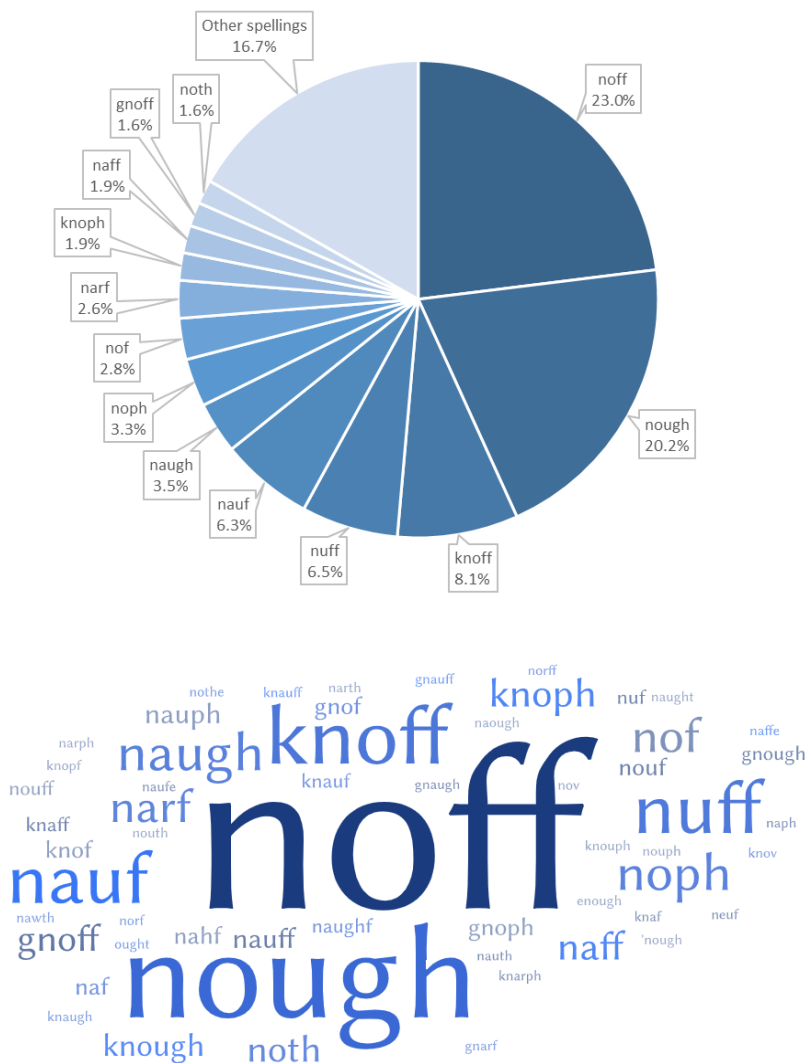

Below, you will find the data for each word as well as their original audio if you want to listen to them again. I also put visualizations for the results. If you want to see them all with proper resolution, I made an Imgur gallery: <https://imgur.com/a/B42Jf6w>

.....

Word #1 (<https://voca.ro/1jling1oTlvC>)

- Word used for the text-to-speech voices (this does not mean that this is the correct spelling): *knoff*
- 3 words (*noff*, *nough*, *knoff*) account for over 50% of the answers.
- Words which *native speakers* wrote more often: *noff* (by a lot), *knoff*
- Words which *non-native speakers* wrote more often: *nough* (by a lot), *naugh*
- Interesting answers: *'nough* (notice the apostrophe), *ought*
