Core Settings *indicates a required field

You can modify your core settings below to be on state (for states we have populated) or Common Core standards. Select the default core standards you would like to use for common assessment sharing and mastery tracking.

MATH	SC: College and Career Ready Standards (2015)
SCIENCE	SC: Academic Standards (2014)
LANGUAGE ARTS	SC: UNPACKED College and Career Ready Standards (2015)
SOCIAL STUDIES	SC: Academic Standards (2011)
OTHER SUBJECTS	SC: CTE - Career Education

Don't see a core for a subject you teach? Let our support team know!

*ELA- uses “Unpacked” because parts A & B of the standard have been dis-aggregated. US History will also use the 2011 standards *this year*, since they have the item bank and will correspond to the EOC. In the future, we will move to the 2019 SCCR, once the EOC has changed to reflect those standards, and there are items in the bank to use.

Next, begin setting up maps using the following steps (these steps should work for all EOC courses that have shared District maps; there are directions to build maps for other courses below):
Click Maps → Shared With Me

****Since I don't have any specific students assigned to me, this part will look different on your end****

Congrats! You've created a Tracker. This is where you can keep an eye on students' progress on assessments as reflected in the standards as the year goes on. It is also where the District will be placing the required Mastery Connect/TE21 Benchmarks three times this year.

See below for FAQ's and additional info:

QUESTIONS:

1. How do I get the district benchmarks added to my trackers? You don't need to do anything! If you have created your trackers from the correct maps with the correct cores, and named them correctly (using the directions above), then the district will push them out to you!
 2. How do I create a Tracker for a course that does not have an EOC or a District Map pushed out?
- Click Trackers → Add Tracker → then fill in the fields as needed:

New Tracker

A doctor sees a patient who has kidney failure, lack of motor coordination, and a poorly

4. What if I teach an inclusion student and he/she needs to be assessed by more than one teacher? Unfortunately, students can't be moved from one tracker to another. However, within your trackers, you can give another teacher access. Click the Orange Square Menu with the 3 dashes → “Add Collaborator” → “Search” and “Add” another teacher who needs access to those students.
