To all - thank you for being a part of this - I am anxious, excited, nervous, exhausted - and I'm sure everyone could easily throw in a few more words to describe this adventure, too. This wouldn't even happen if it wasn't for ALL of us taking on a piece of this puzzle. I can't thank you enough - I had no idea how to make this happen and I couldn't have asked for a better team of folks to work with. I know I will shed some tears when this is done - just know they are tears of joy and appreciation!
