

Οδηγίες προς τους μαθητές:

ATTENTION! Follow the instructions below:

Well, you are going to work in groups today. So split into seven (07) groups; six (06) groups of three (03) members and one (01) group of four (04) members.

Please take your seats so that you can use one computer per group.

Now, I'll hand out a card to each group with your group letter names, i. e. A, B, C, D, E, F, and G.

Please go to e-class & log in. Next, go to the course named **"Ψηφιακή πολιτειότητα: cyberbullying & cybersafety"**; then click on the link named **"Ψηφιακή πολιτειότητα: cyberbullying & cybersafet"** under the heading **"Ενότητες μαθήματος"**; last but not least, click on the link named **"Instructions"**.

Now, let's carry on.

Firstly, each group must click on the link reading their group letter name. Read the information under **"What's the issue?"** and **"Why does it matter?"** Be as quick as possible, but make sure you understand the topic well enough.

Secondly, read the tips under **"Advice"** carefully. Make sure you understand the connection between each heading with their tips.

Thirdly, each group must click on the link reading their group worksheet. Match the three (03) headings on the left with their tips on the right.

When you complete the task, check that your answers are correct.

Then, each group member will have to read through one (01) of the three (03) or four (04) tips on their **"Advice Sheet"** out loud to the whole class.

Meanwhile, the rest of the groups must note down as many words as possible; make sure you focus on verbs, nouns and adjectives.

Next, each group must type their words against the letters of the two key terms: **CYBERBULLYING & CYBERSAFETY** on the worksheet named **"Table 1 – title"**, which is common for everyone; make sure you use words that start with or include the relevant letter.

Finally, the class must reach a conclusion on which is the most useful tip, depending on how often its words have been heard; try and number the tips in terms of priority on **"Table 2 – list of tips"**.
