**Course Description:** This course addresses a range of questions surrounding environmental ethics. We will begin by examining some of the major ethical theories about moral rightness and wrongness. What makes an action morally right or wrong? What considerations do we need to take into account in making moral decisions? We will then address various ethical questions regarding climate change. Does climate change generate moral obligations for individuals or only for governments? If it generates moral obligations for individuals, how demanding are these obligations? After that, we will discuss questions regarding (non-human) animals. Do we have moral duties towards animals? Do animals morally count less than humans or are they morally equal to us? Is it wrong to consume animal products? We will finish the course by addressing moral questions about non-animal objects in nature such as trees and rivers. Do we have moral duties to them? If yes, what further moral implications follow?

**Readings:** All readings are posted on Blackboard.

**Expectations, Assignments, and Policies:**

- **Attendance and Participation.** You’re expected to attend the meetings regularly and participate. More than *three unexcused absences* will affect your attendance grade negatively. Bringing up your (reading) questions during class meetings, paying attention to and answering your friends’ (reading) questions in the class or in the discussion forum are among the top factors that will positively affect your participation grade.
- **Reading Questions.** You’ll submit 1 or 2 questions for ten (10) readings of your choice. Submit your questions on **Blackboard > Reading Questions > [The Reading of the Day] > Create Thread**. Pick one of the readings if there are multiple readings for that day.
  - **Due by 11:59 pm** on the day before the date the reading is assigned.
  - **Find a title for your thread that gives a glimpse at your question.**
  - **What kind of questions?** (1) 1 or 2 *focused* questions—not randomly listed series of questions. (2) They should be *directed at the reading*, and be of a *main concern* in the article. (3) You could focus on something you want to *further discuss*, you *don’t understand*, or *object to* in the article. (4) Don’t merely write the question itself! Say a bit about why that question or objection should arise, why it should

be a concern. (5) Don't go for easy questions! If it's about something you don't understand, make sure the article doesn't clarify it. (6) Last but absolutely not the least: write *clearly*! A college student *who knows nothing of the subject* should be able to understand your question.

- Reading questions will be graded** based on the requirements listed above. I won't always have time to respond to your reading questions extensively on the forum. You'll have your chance to bring it up during class meetings. If you miss the chance, feel free to email me for further discussion.
- How to read philosophy.** Video: <https://youtu.be/XlcrKfaJBRM>
- Don't be like this lawyer.** The Castle (1997) - "The *vibe*... of the thing." Video: <https://youtu.be/VqSzIw6EuVc>

- **Reading Summaries.** You'll write *four* reading summaries, each **1-2 pages** (double-spaced, 12-point font). **The first** reading summary is on the following reading: "*It's Not My Fault: Global Warming and Individual Moral Obligations*" by W. Sinnott-Armstrong. **The other three** reading summaries are up to you and are to be picked from among the readings that come after the Sinnott-Armstrong reading. Submit your summaries on **Blackboard** > **Reading Summaries** > [The Reading of the Week]. Pick one of the readings if there are multiple readings for that week.

- Due by 11:59 pm** on (Wednesday) the day before the reading will be discussed in the class.
- First reading summary.** If you submit it on time, you'll get full credit for it. I'll give you comments, and tell you whether it's an A-level, or B-level, etc., paper. Take it all into account for your other reading summaries for they will be graded strictly and based on the requirements listed below.
- What kind of reading summaries?** (1) Focus on *the main concerns* of the paper and try extracting *the main argument* in it. (2) Avoid direct quotes (unless *absolutely necessary*)—put things *in your own words*. (3) Cite properly. (E.g., "The author says such-and-such (p.256).") (4) Focus on the philosophical points and avoid (e.g.) historical, biographical backgrounds. (5) In some readings, I left notes like "Skip this part" or "Skim over this part." Omit those parts from your reading summaries. (6) Edit your work! Read (and re-read) your paper, cut off excessive words, drop unnecessarily repetitive sentences, re-express or restructure unnecessarily complex sentences, break down long sentences. Last but absolutely not the least: write *clearly*! A college student *who knows nothing of the subject* should be able to have a very good idea about the reading from your summary.
- Four criteria for grading writing assignments.** (1) **Target:** Your reading summary must be about the reading of the week. (2) **Clarity:** Write clearly! (3) **Scope:** Cover all the main points. (4) **Depth:** Cover it all in sufficient depth.
- How to Write a Philosophy Paper.** Video: [https://youtu.be/nKdl\\_VmKNmk](https://youtu.be/nKdl_VmKNmk).

- **Term Paper.** **4-5 pages** (double-spaced, 12-point font). Due on **May 4, 11:59pm ET**. Further instructions **TBA**.
- **Late Assignment Policy.** One point will be taken off your grade *for each late day*.

- **Emails and meetings.** If you find the readings or assignments difficult, meet me in my office hours or talk to me via email. Do not hesitate. I am sincerely happy to help you.

**Your grades will breakdown as follows:**

## Grading Scale:

A	100-94%
A-	93-90%
B+	89-87%
B	86-84%
B-	83-80%
C+	79-77%
C	76-74%
C-	73-70%
D+	69-67%
D	66-60%
F	59% or less

## **Covid-19 & Stay Safe Pledge:**

Syracuse University's [Stay Safe Pledge](#) reflects the high value that we, as a university community, place on the well-being of our community members. This pledge defines norms for behavior that will promote community health and wellbeing. Classroom expectations include the following: wearing a mask that covers the nose and mouth at all times, maintaining a distance of six feet from others, and staying away from class if you feel unwell.

## **Religious Observances:**

If you need to miss a class or deadline due to a religious observance, you will be entitled to makeup opportunities. More info: [http://supolicies.syr.edu/studs/religious\\_observance.htm](http://supolicies.syr.edu/studs/religious_observance.htm).

## **Disability-Related Accommodations:**

Students who are in need of disability-related academic accommodations must register with the Office of Disability Services (ODS), 804 University Avenue, Room 309, (315) 443-4498. For more information, see the Office of Disability Services: <http://disabilityservices.syr.edu>.

## Academic Integrity Policy:

The Syracuse University [Academic Integrity Policy](#) holds students accountable for the integrity of the work they submit. Students should be familiar with the policy and know that it is their responsibility to learn about the instructor and general academic expectations with regard to proper citation of sources in written work. The policy also governs the integrity of work submitted in exams and assignments as well as the veracity of signatures on attendance sheets and other verifications of participation in class activities. Serious sanctions can result from academic dishonesty of any sort.

- You must cite all sources apart from your own lecture notes.
- Feel free to use any acceptable citation format.
- Your reading summaries and reading questions must be your own work.
- I encourage you to discuss the class material with your friends. However, if you use their ideas in any of your written work, you must cite it.

- No repetitive questions: The same reading question can't be submitted twice by you at two different times, or by you and a friend of yours at the same time.
