

SL: Elevate your presence

Hey Five Palms Thai Spa

It's inspiring that you are among the top players in Wellingborough when it comes to massage.

Just a quick question...

Have you seriously considered the social media platforms opportunity?

See, maybe you think it can't affect your sales but let me be honest... It really does.

You already have a Facebook account but you haven't posted anything. Think about those HUNDREDS of clients you keep on losing by not posting anything through this account yet you did set up the account to reach out to them.

Maybe you don't have time to post or you are still searching on what to post. The solution is here, I will create the content for you and help you manage the account.

Do you think this idea can bring an impact to your business? If yes, feel free to contact me.
