

Abortion Stories: Women who survived abortion, women who chose abortion, and women who chose life

We at Students For Life believe in helping both the child and the mom. We think it's important to hear the stories of different women who've been survivors of abortion, who chose abortion, and who have chosen live instead of abortion. Below are plenty of stories that you can read and watch, since it's important for the voices of the women involved to be heard:
