This week, thousands of doctors, nurses, and healthcare providers are calling on Congress to ensure all Americans have the right to vote without risking their health. Ensuring that every American is able to cast their ballot from home is critical for health equity and racial justice. As frontline health and medical professionals that are seeing first-hand the impacts of the #COVID19 pandemic, our collective voice on this issue is powerful and necessary. We hope you will read the letter, share on social media, and make sure your elected officials at the state and federal level know how critical this issue is. Read the full letter here → bit.ly/fair-and-healthy-voting

Equity focus post:

If you care about health equity, you should care about universal-vote-by-mail. The communities that have faced the most devastating impacts of COVID-19 thus far are the same that have historically faced voter suppression and disenfranchisement. As frontline health and medical professionals that are seeing first-hand the impacts of the COVID-19 pandemic, our collective voice on this issue is powerful and necessary. Join us in asking our leaders to ensure universal vote-by-mail → bit.ly/fair-and-healthy-voting

This week, [Organization name] was proud to join thousands of doctors, nurses, and healthcare providers in calling on Congress to ensure all Americans have the right to vote without risking their health this November. Many among us have spent the last two months focused on the overlapping crises of COVID-19 and systemic racism. **Ensuring that every American is able to cast their ballot from home is critical for health equity and racial justice.** As frontline health and medical professionals that are seeing first-hand the impacts of the COVID-19 pandemic, our collective voice on this issue is powerful and necessary. We hope you will read the letter, share on social media, and send it directly to your elected

officials at the state and federal level. Join us in asking our elected officials to support universal vote-by-mail → bit.ly/fair-and-healthy-voting
