

Singer Equipment Company, Inc. Announces Promotion of Eric Santagato to President, Distribution and Contract, PA/NY

ELVERSON, Pa. — August 31, 2026 — Singer Equipment Company is pleased to announce the promotion of Eric Santagato to President, Distribution and Contract, PA/NY, expanding his leadership responsibilities across two important areas of the company's business.

Santagato is a proven and highly successful leader at Singer. Under his leadership, the company's Distribution business has more than doubled in revenue, while continuing to strengthen its capabilities, infrastructure, and national reach.

During his tenure, Santagato has helped transform Distribution from a strong regional business into a national distribution platform. He expanded Singer's warehouse footprint and strengthened the logistics network and capabilities necessary to serve customers across the country. At the same time, he built a talented leadership team and organizational structure designed to support both Distribution's growth and the continued growth of Singer.

"Eric's success goes well beyond the results," said Fred Singer, CEO and President of Singer Equipment Company. "He has built the people, infrastructure and capabilities behind that growth. Eric has demonstrated an ability to see where the business needs to go, build the organization required to get there and then execute. He has earned the trust of our employees, customers and leadership team through his judgment, accountability and commitment to doing what is right for Singer."

In his expanded role, Santagato will continue to lead Singer's Distribution business while also assuming leadership responsibility for the company's PA/NY Contract business.

"This promotion recognizes what Eric has accomplished and reflects our confidence in what he can accomplish next," Singer added. "He has proven his ability to successfully lead and scale a significant business, develop strong leaders and build for the future. We believe those same leadership qualities will be instrumental in the next chapter of our PA/NY Contract business."

Santagato's promotion reflects Singer Equipment Company's continued investment in leadership, organizational strength and scalable growth across the business.
