

Fusion Setup Directions

Run in Chrome or Firefox, should work on any computer even Chromebook

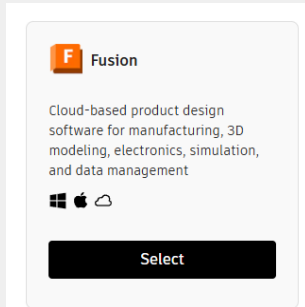

=====

-- follow steps, we will try this together

Step 1: Make an account

<https://www.autodesk.com/education/edu-software/overview?sorting=featured&filters=individual>

-- select

-- Select Student

– Create Account using school email

- At one point it will give you a weird error,, so scroll back down to the bottom and select [Try Again] and continue.
- If at some point it asks you to log in, login with your email address and and select forgot password and pick a new one. You should then be able to get back to the student account screen.

Step 2: Try to get Student Access (not sure if it will work)

-- Make sure your name matches your name on record at the school

-- Upload one following for proof of student

---- picture of your student ID (if you still have it)

---- Screenshot of your Schedule or classlist

----- Make sure the screenshot includes

----- Your name

----- Somerville High School at the top

----- DO NOT include any grades, etc.

Screenshot Keys

- Windows:  +Shift+s
- MAC: Shift+Command+3
- Chromebook: Shift+Ctrl+Show All Windows ← 6 button from left on the top
