

Dual Enrollment School Fees

Does dual enrollment cost a child or the child's family any money?

No, however, a district may charge a fee to a dually enrolled child if a fee also is charged for the same item or service to a regularly enrolled child. (e.g. if a district charges a school supplies fee under Iowa code 301.1 to regularly enrolled students, that same fee may be charged to a dually enrolled student who also participates in the course or activity.) Districts may not charge the dually enrolled student the same total fee that a regularly enrolled student is assessed, but districts may prorate the total fee that a regularly enrolled student is assessed in accordance to the class time usage of a dually enrolled child. Iowa Code section 299A.8.
