

Privacy Policy

This privacy policy (“Policy”) governs your use of the software application **Math Problems: mental maths** (“Application”) for mobile devices that was created by Madiyar Aitbayev. The Math Problems is an app that helps you to master your mathematical skills. This app takes a different approach by generating infinite number of math problems instead of using limited problem set, so you don't get bored. It contains different interactions, such as keyboard, multiple choice and true/false. For a topic you can choose variations of problems, so that this app is useful for beginners as well as for experienced.

Information collection

The Application may collect anonymous and aggregated app usage data to help us improve the Application. This data may contain information about how the Application is used, but it cannot be connected to any personal data.

Sharing information

We will not sell, distribute or lease any collected information to third parties unless we have your permission or are required by law to do so.

Changes

The Policy is subject to change from time to time. Changes will appear on this document and it will be accessible through the Application. If you continue using the Application after such changes to the Policy are made, this shall mean the acceptance of the Policy amendments.

If you do not agree with any amendment or other terms of this Policy, you shall discontinue using the Application and shall uninstall and remove the Application from your device. In order to uninstall and remove the Application, please use the application manager provided with your device or consult your device manual for reference.
