Rusty Compass Adventure Bingo ("Rusty Compass," "we," "us," or "our") respects your privacy and is designed to provide a fun, simple, and family-friendly outdoor gaming experience while collecting as little personal information as reasonably necessary.

This Privacy Policy explains how information may be collected, used, stored, and shared when you use the Rusty Compass Adventure Bingo mobile application (the "App").

By using the App, you acknowledge the practices described in this Privacy Policy.

We do not require you to provide:

- Your full legal name

- Camp Champ

You are not required to use your real name.

Please do not enter sensitive personal information into a display name.

Avatar

The App may allow you to select from built-in avatars.

2. GAMEPLAY INFORMATION

The App may store gameplay information necessary to operate the game.

This may include:

- Bingo cards
- Marked bingo squares
- Selected themes
- Game progress
- Session information
- Player nickname
- Avatar selection
- Bingo results
- Connection status
- Game timestamps

Much of this information may be stored locally on your device.

When multiplayer functionality requires information to be synchronized between players, only information reasonably necessary to operate the multiplayer game should be transmitted.

3. CAMERA ACCESS

Rusty Compass may request access to your device camera solely for the purpose of scanning a multiplayer game QR code.

The App does not need camera access for normal solo gameplay.

The App does not use the camera to continuously monitor you.

If you do not grant camera permission, you may still join a game by manually entering the game access code where that feature is available.

4. BLUETOOTH AND NEARBY DEVICE ACCESS

If you choose to use supported nearby/offline multiplayer functionality, the App may request access to Bluetooth or other supported nearby-device/network functionality.

This access may be used to:

- Discover nearby players
- Connect participating devices
- Synchronize game progress
- Maintain a local multiplayer session

These permissions are requested only when the related feature requires them.

If you deny these permissions, solo gameplay and other available features may continue to function.

5. LOCATION INFORMATION

Rusty Compass does not require precise GPS location information for normal operation.

The App does not need to know your exact physical location to generate or play bingo cards.

You may manually select a theme or Park Pack based on where you are traveling.

We do not intend to continuously track your location.

6. INTERNET CONNECTIVITY

Rusty Compass is designed to support offline gameplay.

Some features, including certain multiplayer functionality, purchases, content updates, or other online services, may require an internet connection.

When an internet connection is unavailable, the App may continue to provide locally available gameplay features.

7. PURCHASE INFORMATION

Premium Park Packs may be offered through Apple's App Store, Google's Google Play Store, or another authorized app marketplace.

Rusty Compass does not receive or store your complete credit card, debit card, or payment-account information.

Payments are processed by the applicable app marketplace.

Your purchases may be associated with an anonymous or platform-provided transaction identifier for the purpose of verifying and restoring purchases.

Please review Apple's or Google's applicable privacy policies for information about payment processing.

8. INFORMATION WE DO NOT SELL

We do not sell your personal information.

We do not intend to use your personal information for behavioral advertising.

We do not intentionally collect precise location information for advertising purposes.

We do not sell or rent player information to advertisers.

9. THIRD-PARTY SERVICES

The App may use third-party services necessary to provide functionality such as:

- App Store or Google Play purchases
- Cloud synchronization
- Multiplayer services
- Crash reporting
- Technical infrastructure

Third-party services may process limited technical information according to their own privacy policies.

We aim to minimize third-party data collection and will not knowingly add advertising, tracking, analytics, or other data-collection services unless they are reasonably necessary and appropriately disclosed.

The final version of this Privacy Policy should be updated if additional third-party services are introduced that materially change the information collected or processed.

10. ANALYTICS AND TRACKING

Rusty Compass is intended to minimize tracking.

We do not intend to use personal information for targeted behavioral advertising.

If analytics or diagnostic services are added to the App, the information collected will be reviewed and the App's privacy disclosures and App Store privacy information will be updated as required.

Rusty Compass is designed to be family-friendly.

We do not intentionally require children to provide personal information such as:

- Full name
- Email address
- Telephone number
- Home address

Multiplayer participation may use a nickname or display name.

If you believe a child has provided personal information to us in a manner that should not have occurred, please contact us using the information provided below.

12. DATA SECURITY

We use reasonable administrative, technical, and organizational measures designed to protect information associated with the App.

However, no method of electronic storage or transmission is completely secure.

We cannot guarantee that information will never be accessed, disclosed, altered, or destroyed as a result of circumstances beyond our reasonable control.

13. DATA RETENTION

Rusty Compass is designed to minimize the amount of personal information retained.

Gameplay information stored locally on your device may remain until you delete the App, clear its data, or otherwise remove the information from your device.

Information associated with multiplayer sessions may be retained only for as long as reasonably necessary to provide the applicable service, maintain the session, resolve technical issues, or comply with legal obligations.

Session information may automatically expire after the applicable game session ends.

14. DATA DELETION

Because Rusty Compass does not require a personal account for normal gameplay, much of the information associated with solo gameplay is stored locally on your device.

You may remove locally stored application information by deleting the App or using the applicable device controls.

If the App stores information on a server that can be associated with you, you may request deletion of that information by contacting us.
