

*Hi! This is a hub page for Fate-14 information!*

### **[THE ALL-NEW 2.0 RULES!!](#)**

*Constant evolution leads to a few new concepts! Events are almost exclusively run using these rules now! This is pretty much the one-stop-shop.*

### **[RULES OF PLAY! \(old\)](#)**

*Here are the rules! It's not scary, it's a much smaller number of pages than say a Player's Handbook and a bunch of it is class-based special abilities! RECENTLY UPDATED! Lots of stuff here! Actually includes character creation now!*

### **[CHARACTER SHEET MASTER LIST!!](#)**

*Just what it says on the tin! If you want your sheet to be publicly viewable (like almost everyone), it will end up here on request! Come browse and see what kind of whackiness people get up to, adapting their beloved persona into a Fate-14 sheet! This may be slightly outdated, but the sheets should still be valid!*

### **[FATE-14 STORYLINE HUB!!!](#)**

*Most ongoing storylines are kept tabs on here, as well as archives related to past ones! Browse, peruse, and join in!*

### **[New! SPAHRO'S STUNT GUIDE!](#)**

*A handy guide for putting together Stunts, which is arguably the most balance-heavy and oversight-required portion of the whole affair.*

**Old Links, possibly redundant since the Rules of Play were massively updated:**

**[CHARACTER CREATION!](#)**

*This should be your first stop! Come learn how to make your character! (Note: May be out of date, see above)*

**[GM INFO!](#)**

*You probably don't have to read this, unless you want to run sessions eventually! But it's a handy link and contains some info and examples anyway~*
