

McCord Junior High School

Four Houses - One Family

September 2025

Dear McCord Families and Community Members,

Over the last six years, McCord Junior High School has continued to develop its Four Houses - One Family program. Each house is connected to one of four cornerstones: Respect, Integrity, Discovery & Knowledge. The cornerstones are the foundation for all things we do, plan, and promote here at McCord. In our first six years with the House System, our initial sponsors helped provide House shirts to all students/staff; they created opportunities to promote our beliefs and values; and they allowed us to provide incentives for end of the year events and competition.

This entire system has breathed excitement and enthusiasm into our building and we know it will continue to thrive. As new sixth graders enter our building, their first question is always "When will I find out what house I'm in?" Providing students a connection to school, outside of academics or athletics, is one of the main reasons this system is successful. When students and staff want to come to school, all things are easier. Our Four Houses system ensures that every student belongs and feels welcomed.

We appreciate your consideration and your continued support,

Susan Felver
Principal,
House MacDonald

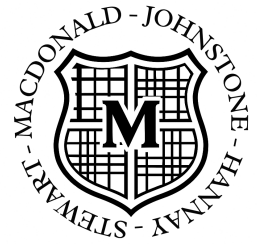

Melissa Tusing
Assistant Principal,
House Johnstone

We would love your help.

House sponsorships are the foundation of an enduring future for the McCord Houses. These are direct investments by businesses or families for the growth and development of each house. Beyond financial investment, sponsorships are an opportunity for relationship development between community leaders and our leaders of tomorrow. House sponsors will be invited to participate in all House programming. In addition, sponsor names are prominently featured in our learning community, as well as our social media platforms. We are reaching out to our original sponsors as well as new potential community partners. Our House system is entering its seventh year and we have exciting plans!
