

Attention Commander Rothlosh or his Replacement
From Superior Warden Fulchuct

Commander, here are the units you requested for transfer. I beseech you not to pry anymore men from my facility. I have few enough as is. The Prisoner is considered by Supreme Commander Moltke to be of vital importance, and not to be allowed escape. I cannot spare anymore men, lest there be dire consequences.

Any further requests for men or provisions will be outright denied. I know the Gap is of strategic importance, but there must be other means to supply your butcher shop down there. Feel free to appeal to Moltke directly if you disagree.

But before you do please take into consideration that my facility is designed to contain just one being of immense power. If I cannot be properly staffed, you will open up an internal front within our territory. Surely you realize the doom that would present to the Army of Blood.

Sincerely,
Superior Warden Fulchuct
