Yours

RELATIONSHIP BASED TRAINING

Our training philosophy is centred on handler responsibility - it is up to us to provide a fulfilling lifestyle for our dogs, in order to create a strong foundation from which we can teach them the rules they need to be successful canine citizens.

Relationship based training means we always consider our dog's needs and emotions, and recognize the influence we have on them. We take responsibility for treating them with respect, prioritizing having fun together, and understanding and advocating for them based on their individual needs.

As important as it is to fulfill our dog's needs, we prioritize meeting our human needs as well. We emphasize seeking and receiving support for all the humans we work with, knowing that we all deserve to have a supportive community around us.

We don't expect dogs to be robots, our goal is for our dogs to feel confident in being and expressing themselves, while safely and harmoniously moving through life together.

We have dogs because their companionship is one of the greatest joys in our lives.

Mine

Relationship Based Training

We aren't here to teach your dog boring tricks they will never use. **We want to** teach them how to be the well behaved dog of your dreams, while making sure they enjoy themselves too!

We don't expect dogs to be robots, our goal is to teach them to follow your commands, while staying force free!

We build a trusting relationship with your dogs then we teach them **real-world** skills that they will actually use, for example ...

- Not crowding the front door
- Not pulling on the leash
- Not barking at everything
- Not running out the door

- Not jumping up on people and more!

We realize some people can't visit us physically. This is why we offer virtual packages too. We want to help you, no matter where you live in the world.

It's scary to train your new best friend, if you mess up you could be stuck as the hated neighbor with the loud annoying dog forever. So instead of risking it, check out our services today!
