

CHARACTER DIRECTORY,

This is a general idea of my muses and a work in progress. My muses can be finicky so just because you see them doesn't necessarily mean that I will use them with you. You can always try or message me. Some fandoms strike my fancy or I have that muse and haven't been able to use it at that time. If there are books, I will most likely be able to rp them as long as not said otherwise.
