

From humble beginnings, Tara didn't just step into real estate, she studied every angle of it. She became a licensed agent to learn the ins and outs of contracts, title, and lending, determined to master the business from the ground up.

Her dream was always to invest in real estate full time, and that drive led her to launch a successful construction company with her brother, and, eventually, build a thriving real estate investment and property management business.

Today, Tara is known not just for flipping homes, but for transforming communities, one project, one family, one opportunity at a time. Her work is rooted in integrity, grit, and a deep desire to help others win.

But her greatest role? Mom. Her two kids are her reason and her why and everything she builds, she builds with them in mind.
