INTRO

Nearly 10 years of experience working with various technologies including web & mobile development, systems and infrastructure work, big data and more. I'm driven, intuitive, resourceful, optimistic, quick to learn, and I lead by serving first. I'm a self-taught self-starter, I love design and solving problems. I've worked in start-ups and midsize companies, and as a freelancer or consultant. I'm always excited to work with other passionate people to build something great!

WORK HISTORY

GloveBox, Remote — Head of DevSecOps

Feb 2023 - Present (~3.5 Years)

Led DevOps & Security to complete SOC2 compliance for the organization, migrate existing AWS infrastructure to SSO-first zero-trust posture using IaC tools. Also defined and implemented security policy to enable compliance using Data.

GloveBox, Remote — Senior Systems Software Engineer

Oct 2021 - Present (~5 Years)

Systems Engineering for a first of its kind insurance platform combining digital experiences from many key industry players into a single UI and platform for agencies, agents and policy-holders.

Sentral, Remote — Senior Software Engineer

Mar 2021 - October 2021 (8 Months)

Web Development on a game-changing lifestyle apartments company built on the combination of long term leasing, tenant-driven home sharing and furnished hotel stays.

RecSpot, Remote — Full Stack Software Engineer (Contractor)

Nov 2020 - Present (9+ Months)

Led Software Architecture and Backend Development for an amazing peer-2-peer content rating and recommendations platform. Later advised and helped drive hiring processes, as well as managing a highly distributed team of international developers.

ModWeb, Columbus Ohio & Remote — Partner, Consultant

Oct 2019 - Jun 2021 (21 Months)

Led Software Architecture, Mobile Design & Development, DevOps and Backend Development for the new relaunch of a premier gig-economy solution for facilities management.

Olive, Columbus Ohio — Full Stack Software Engineer

Oct 2018 - Nov 2019 (14 Months)
