

Graph 1 (of 4)

Making Graphs for Infographics

Directions:

1. From the list of possible statistics, decide which one you will represent in your first graph.
2. Screenshot any data you might use to create your graph. Gather all of your screenshots on this document:

3. Use NoodleTools to write a citation for the source of your data. Follow [these directions](#) to do so. Screenshot the citation from your "sources" page and paste it here:

4. Your graph should be hand drawn. This is only a first **draft** of this graph as you will likely end up editing it. It does not need to be perfectly accurate or in final draft form.
5. Add a **title**, a **key**, and a one sentence **caption** to explain the interpretation of your graph.
6. When you are done with your graph, submit a picture of your graph:
