RCSS-18 Phoenix

Created by Jay, Michael and Marcus

Follow these instructions to successively create a RCSS-18 Phoenix

When using the template, Start with the coloured side down.

*****Note: these pictures are taken without the template, when you make the plane you can use the template to create the plane*****

Step 1:

Fold the long side of the paper in half down the middle to make a crease down the middle.

Step 2:

Fold the top left corner of the long side of the page inward to meet with the middle crease made in step 1.

Step 3:

Repeat step number 3, except this time do the top right corner of the long side of the paper again to meet the middle crease.

Step 4:

Now fold the far left triangle edge to meet again with the middle crease.(This will also meet around the middle of the paper)

Step 5:

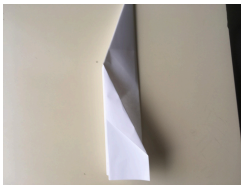
Repeat step number 4, except this time do the right edge of the long side of the paper also again to meet the middle crease.

Step 6:

Now fold the two sides together to make the folds face outward.

Step 7;

Fold the top of the paper downwards to meet the middle piece of the paper.

Step 8:


Repeat step number 7, this time with the other top side of the paper.
