- Encouraging, motivating
- Motivating, useful, to be continued, encouraging
- It was very hot but inspiring! It was great to be part of this MMM project!
- Plus: the good atmosphere; Minus: the heat

- Woken up, more experience, different point of view, enriched
- Well-organised, insightful, motivating, supportive, thank you <3
- Inspirational, motivating, thank you! <3
- The most valuable session so far. :) The blackout poem :) (great activity for my students). It's 3 o'clock already and we're still here (transport to different cities) This did not work for me 😞
- Inspired, refreshed, enthusiastic, thankful
- A wonderful conclusion to the MMM project. I particularly enjoyed the blackout poem activity. Doing a pre-lesson mentorial was also a refreshing change which provided me with further insight and great ideas from my mentor. I also got to meet and work with a new mentor, which was awesome.
- Everything new is good. New people, new way of learning and teaching. And lots of fun. :)
- Development, new theories, experiences, solutions
- It was a great session. All the activities were interesting, especially the last one. It was really fun to be part of it.
