T&C

- I will allow for 1 free revision of the audio after sending it (unless I majorly messed something up – i.e. the audio quality is off). Full re-dos cost 80% of the original price of the audio.
- I retain the right to turn down requests. This is non-negotiable.
- I reserve all the rights to my content, even after it is shared. You cannot redistribute it or post it on any other platform without my explicit consent.
- **My hard nos are: loli/shota, scat, vomit, raceplay, beast (monster content is fine), orientation play, necrophilia, excessive violence, excessive and/or nonconsensual gore, excessive pain play, snuff, content featuring minors, homophobia, transphobia, and slurs. Please respect these boundaries.**
- ^Additionally: There are some exceptions I'd make for **nonconsensual gore, excessive pain play**, and I may refuse some requests including **incest and rape**, so if your request includes those, come to me with the idea first to see if it's possible or not.
- I will share the finished audios via email or Discord, .wav file and/or Soundgasm link.

FAQ:

Can I request that personal information about myself to be added into the audio (name, location, age, etc.)?

- Yes! You are free to make the request as personalised to you as you wish! Unless strictly permitted by you, the audio will be exclusively for your listening pleasure.

Do you use the 3Dio automatically for commissions or do I have to request that?

- You need to specify if you want the 3Dio microphone as it's a different style of audio than normal.

Can I request different accents?

- Yes! I can do a variety and am open to doing different vocal tones and accents! Here's a short list of accents I can easily do: different British accents (Received Pronunciation English, Queens English, South London), Russian/general Slavic, general American, valley girl, southern American, French. With less proficiency I can do: Irish.

Can I request characters from games and media?

- Yes! If I've done them before that's completely fine, but if I've never done the character then I will have to look into them before I sign off on the commission. **I will not do characters that are other than white caucasian i.e. no POC and Asian characters.** I make exceptions where the english-speaking VA is white caucasian such as with anime and some video games commonly.
