

Rosemary & Honey Chèvre

Something new we are trying out this season. Sweetened with local honey and dried rosemary, this chèvre is equally delightful for breakfast or hors d'oeuvres.

It has a shelf life of a couple of weeks, but can also be frozen for later.

Feta

Our feta is made with raw goats milk and barrel-aged for over 60 days. Dense and salty in the Greek tradition. Best enjoyed as a condiment rather than a table cheese.

Serve in salads, spanakopita. or on a pizza.

This cheese has a long shelf life, as long as it is covered with brine. Aging improves the flavor. No need to freeze.

Feta can be goat cheese but not all goat cheese is feta.
