o-net interest profiler

Welcome to the O*NET Interest Profiler!

Discover your work-related interests and explore career options that are a good fit for you.

The process is super easy, but take your time... the results can help guide your future!

Here's how it works:

Think about how much you'd like to do various activities if they were part of your job.

See what your answers reveal about your work interests.

Explore a list of careers matching your interest profile.

Have fun learning and exploring!

I have a profile

What would you enjoy doing at your dream job?

In the next section, you'll read 30 work activity descriptions that some people do on their jobs.

1. Read each one carefully and try to picture yourself doing that activity.
2. Decide how much you'd like to do the activity. Tap or click on one of these answers:

No personal information, like your name or location, is stored.

Review your results by reading about your RIASEC codes. These codes will tell you about the type of activities you like to do in a job and the kind of work environment you might like.

The RIASEC vocational interest model is based on psychologist John Holland's theory that people are more satisfied and successful when their work matches their interests and personality. Six broad interest areas describe both individuals and work. Click an interest to learn more:

Careers that share a similar profile to your personal combination of interest areas are likely to fit you. This match can help you choose a career path or jobs where you'll feel more motivated, capable, engaged, and happy!
