

## Approving Parents Booking's datasharing request in Arbor (Version 1.0)

Please ensure Parents Booking has sent you a request to share data before proceeding. To request this, email <a href="mailto:hello@parents-booking.com">hello@parents-booking.com</a> by supplying your school's name (and if it's a common school name, the town/city or post code of your school to help us distinguish).

Once you have received an email confirming that Parents Booking has requested to data share:

Go to Arbor > System > Partnered Apps (API Users)

2. If you have any requests, they show in 'pending requests'. Approve the Parents Booking request.
