

## Bubbly Sheep Commission Terms Of Service

Art sites: [FurAffinity](#) | [Twitter](#) / [Tumblr](#)

- Types of commissions I offer are featured [HERE](#).
- Open to drawing any type of character (furry, anime, cartoon, etc.) except realistic people.
- Payment is due up front after the commission is agreed on. PayPal only. ( If commission price is over 250\$ a payment plan can be worked out. Please ask first.)
- I will send progress reports during the process. Edits should be requested at that time.
- Please keep requests for edits to 3 during the sketch phase; 2 small edits for line work, and slight color modification is allowed at final color. I will send you WIP photos and updates during the commission process. At that time we can discuss edits. I will do my best to respond to you within 24 hours.
- References must be clear and consistent. Unless it is along the lines of “this reference features X marking or article of clothing but I decided later that it’s optional”, all references must have a concise image of your character including all possible markings and colors. If I find the references are contradictory or not clear, you will be contacted for clarification.
- Please let me know what species & identifying gender your character is if it’s not included on the reference sheet, so I do not mistake them for another species based on any vague reference pictures.
- If I cannot finish your commission for some reason, you will be refunded for the work that has not been completed.
- If you choose to cancel your commission, you will be partially refunded based on progress made with your drawing.
- If you choose to cancel and there has already been work done on your drawing, I may offer it up as a YCH situation for any other potential buyers. If this happens, I will refund you in full.
- If 1 year passes after commissioning with no response, and I have reached out with no response your commission will be canceled and not refunded. (exceptions apply if you communicate with me about pushing back the commission due to extreme reasons (Ex: family emergency, health reasons))
- Time of completion varies. If you have a deadline, this must be specified ahead of time.
- Shipping is not included in price.
- By commissioning me you are commissioning my style. Do not request for me to mimic or simulate style beat by beat. (feel free to discuss early on if you want something a certain way)
- Gashapon Badges: On average take 3 months to be physically completed
- Gashapons continued: I will take commissions of Anime/cartoon characters, please discuss ahead of time. I prefer to be at least familiar with the character. I do request that if it is a character from a series I already have existing Gashapons Charms for (ex. [My Hero Academia](#)) that I may make limited changes such as ball color or expression to be

added to shop thus your charm will still be unique but this will allow my catalog to be expanded, Other series up for discussion)
